Ellepot H-112

Semi-Automatic Ellepot Machine | Technical Data Sheet

Overview

The H-112 is a semi-automatic Ellepot machine developed for high capacity and flexibility. Its double production line can be fitted with two different pot diameters for flexibility, or the same diameter for high-speed production, making it well suited to higher-scale operations.

Key Features

- High capacity: up to 18,000 pots per hour
- Two production lines for mixed-size or high-speed single-size production
- Flexible pot diameters from Ø15 to Ø50 mm
- Adjustable pot length up to 240 mm

Specifications

Parameter	Specification
Machine type	Semi-automatic, double production line
Pot diameter	15 – 50 mm
Pot length	Adjustable up to 240 mm (H-112 LS: up to 480 mm)
Capacity	Up to 18,000 pots per hour (depends on pot size and peat)
Production lines	2 – configurable with two different diameters or the same diameter

H-112 Long Stroke (LS) Option

The H-112 LS offers the same features with significantly improved production capacity, particularly for tall pots over 100 mm in height. It handles pots up to 480 mm long, making it highly efficient for plants that need deep roots.

Upgrade Option – Ellepot Turbo Multiflex

Add advanced automation to the H-112 with the Ellepot Turbo Multiflex, including automatic insertion of pots into trays.

Available Ellepot Tray® Pot Diameters

Ø15	Ø20	Ø23	Ø24	Ø25	Ø30	Ø32	Ø35	Ø40	Ø45	Ø50

Need more pot-size flexibility? The semi-automatic H-202 produces both Jumbo and small Ellepots in the Ø15–80 mm range.
