ELLEPOT® AUSTRALIA

Ellepot H-300 Series

Semi-Automatic Ellepot Machine | Technical Data Sheet

Overview

The H-300 Series is a configurable range of semi-automatic machines for producing jumbo Ellepots from 80 to 150 mm. Available with two to five production lines, the range is designed for stepping young plants into larger pots before field planting, particularly in fruit, nut and forestry production.

Key Features

- Two to five production lines
- Jumbo Ellepots from 80 to 150 mm
- Capacity above 5,000 pots per hour
- Adjustable pot length up to 300 mm
- Designed for stepping up young plants
- Upgradeable with compatible Tray Fillers

Specifications

Parameter	Specification
Machine type	Semi-automatic H-300 Series
Production lines	2 to 5 lines (H-302 to H-305)
Pot diameter	80 - 150 mm
Pot length	Adjustable up to 300 mm
Capacity	More than 5,000 pots per hour, depending on line count, pot size and peat
Typical applications	Fruit, nut and forestry propagation; stepping up before field planting

Automation Upgrade

The H-300 Series is compatible with Ellepot Tray Fillers for a fully automatic system. Dibbler and seeder add-ons can support a hands-free propagation process and free staff for other tasks.

Available Ellepot Tray® Pot Diameters

Ø80	Ø100	Ø120
