Ellepot H-301

Semi-Automatic Ellepot Machine | Technical Data Sheet

Overview

The H-301 is a semi-automatic machine for producing jumbo Ellepots from 80 to 150 mm. Its single production line is designed for stepping young plants into larger pots before field planting, particularly in fruit, nut and forestry production.

Key Features

- Single production line
- Jumbo Ellepots from 80 to 150 mm
- Up to 1,500 pots per hour
- Adjustable pot length up to 300 mm
- Designed for stepping up young plants
- Upgradeable with a compatible Tray Filler

Specifications

Parameter	Specification
Machine type	Semi-automatic, single production line
Pot diameter	80 - 150 mm
Pot length	Adjustable up to 300 mm
Capacity	Up to 1,500 pots per hour (depends on pot size and peat)
Typical applications	Fruit, nut and forestry propagation; stepping up before field planting

Automation Upgrade

The H-301 is compatible with a Tray Filler Jumbo for a fully automatic system. Dibbler and seeder add-ons can support a hands-free propagation process and free staff for other tasks.

Available Ellepot Tray® Pot Diameters

Ø80	Ø100	Ø120
