PROPTEC™ horticultural products

ELLEPOT® AUSTRALIA

Ellepot Multiflex

Automatic Tray Insertion System | Technical Data Sheet

Overview

The Multiflex upgrades an Ellepot H-111 or H-211 semi-automatic machine to an automatic set-up by inserting Ellepots directly into trays. It supports pot diameters from 15 to 80 mm and can be configured with handling, irrigation, dibbling, drilling and seeding options.

Key Features

- Automatic insertion of Ellepots into trays
- Compatible with H-111 and H-211
- Pot diameters from 15 to 80 mm
- Up to 6,000 pots per hour
- Customisable tray patterns
- Expandable with handling, irrigation, dibbling, drilling and seeding

Specifications

Parameter	Specification
System type	Automatic Ellepot insertion into trays
Compatible machines	Ellepot H-111 and H-211
Pot diameter	15 - 80 mm
Capacity	Up to 6,000 pots per hour (depends on pot size and growing media)
Configuration	Customised automatic solution with optional process modules

Automation Upgrade

Available modules include tray handling, water or irrigation units, dibble units, drillers and seeders. The system can also create customised pot patterns in trays for a tailor-made propagation line.

Available Ellepot Tray® Pot Diameters

Ø15	Ø20	Ø23	Ø24	Ø25	Ø30	Ø32	Ø35	Ø40	Ø45	Ø50	Ø60	Ø65	Ø70	Ø80
