

98 Cell Tray For 30mm Ellepot

Citrus Rootstock Liners - Trees - Shrubs - Forestry

This specialist deep tray was developed for Citrus rootstock seedling liners using an Ellepot 30mm by 100mm which suits tree liners very well and gets the plant off to a great start with fantastic 'air pruning' of the roots.

Made in USA

Super long-life injection molded plastic - Very strong while remaining lightweight

Designed for 9" deep 30mm Ellepot®

Fantastic aeration and drainage of media

Features lug on underside to slide onto "t"-rail benching systems

Rigid design for ease of carrying and benching

Easily fully sterilised, unlike Styrofoam - Will take higher temperatures with no negative effects on life of tray or plant pulling

Plants pull very easily, year after year

Double vertical root training ribs to direct roots and aid in drainage / aeration
