

# FlexiMix

## Technical Data Sheet

**DESCRIPTION:** The FlexiMix® is a shredded granular version of the Flexi growing media used for Flexi Plugs and Flexi Trays. The FlexiMix has the same properties as the Flexi Plugs: spongy; does not compress; can dry down and rehydrate.

**APPLICATION:** The water holding capacity of FlexiMix makes it a great alternative to other mixes for commercial growers, interior landscapers and urban farmers. Also used in vertical wall applications and vertical channels.

### PHYSICAL PROPERTIES:

PH: 5.7 +/- 0.2

EC: 0.8 +/- 0.2

**FOOD SAFETY:** This product is food safe when used in conjunction with your own

food safety program.

### TO USE:

**STORAGE & HANDLING INSTRUCTIONS:** Store out of direct sunlight in a cool dry location. As with any peat product, wearing gloves when handling is recommended. If product is dry, a dust mask may be worn.

### SHELF LIFE:

**DISPOSAL:** Please contact your local waste disposal facility for end-of-life options.
